

# STONE BURIER WITH BED FORMER SHAPER TYPE RSF

For tractors from 80 to 160 HP

Built with a working width from 185 to 300 cm, required power from 80 to 160 HP and working depth from 15 to 30 cm. RSF clods burier with bed former shaper is a professional machine built to work in clayey and hard soils. The exclusive Frangiter rotor and its high rotation speed allow to break up the clods evenly.

The Frangiter technique and the solid side transmission by gears allow to achieve more reliability and duration of the machine during the years even in extreme conditions.

TYPE	Working width		Frangiter rotor diameter	Frangiter rotor speed	Tractor power	Tractor weight	Tractor PTO speed	Tractor PTO shaft diameter	Single bed former shaper						Multiple bed former shaper
